Subject: Proposed Rule: Legal Expense Fund Regulation (RIN 3209-AA50)

If I understand correctly, there is a rule about to expire which would make ethics compliance for legal expense fund regulation optional. Yeah, that's not defensible. I oppose adoption of this Rule and certainly hope you will too.

We need to be a country that follows the rule of law. And those laws need to demand high standards of ethical behavior from all government officials (and citizenry too for that matter).

Thank you,
